

ENVIRONMENTAL POLICY

OUR GOAL

Wessex Petroleum Ltd (trading as WP Group) seeks to be a respectful custodian of the environment whilst carrying out our business activities, by reducing our negative impacts on the environment. Our commitment to maintaining an Environmental Management aids our dedication to best practice and continual improvement in all aspects of our work and of the environment we work in. WP Group aims to demonstrate to our employees, partners and other stakeholders our commitment to the environment by promoting environmentally responsible practices and incorporating sustainable principles into our work.

OUR BUSINESS

WP Group is a distributor for Esso branded bulk fuels and for Exxon Mobil lubricants. The company has been servicing the counties of Hampshire, Dorset, Wiltshire, Berkshire and West Sussex with fuels and lubricants for over 30 years. Its main depot is based at Hythe, Southampton where the lubricants warehouse is also located. An additional depot, for fuel distribution is located at Chilbolton, near Andover.

In 2006, under a scheme known as Buyback, WP Group were appointed a Strategic Distributor for Exxon Mobil lubricants covering the South of England.

Backed by the quality and range of Exxon Mobil products, WP Group has expertise in a variety of markets; Industrial, Aviation, Agricultural, Heating, Automotive, Commercial, Motorsport and Marine, with a large market share in the domestic heating market.

The sales team at WP Group has experience and in depth knowledge of the products available from Exxon Mobil and their field sales personnel are available for site surveys and presentations. Technical backup is also available via Exxon Mobil's Research and development Department.

OUR ENVIRONMENTAL POLICY

We shall:

- develop an awareness and understanding with our employees, partners and other stakeholders of the many interactions between the company's operations and the environment,
- maintain a healthy working environment for all our employees, partners and other stakeholders,
- prevent the incidence of pollution and minimise impacts to land, air and water,
- comply with all relevant environmental legislation and other requirements to which the company subscribes,
- achieve continual improvements in our overall environmental performance
- reduce quantities of waste disposed to landfill by either reducing the amount produced, reusing where possible and recycling that which can not be reused,
- reduce the amount of hazardous waste we produce,
- reduce the amount of energy we use through good management, training and informed purchasing practices and decisions and,
- reduce vehicle emissions generated by our business activities by monitoring the types of vehicles and machinery we purchase, proactive vehicle and machinery maintenance and by efficient work scheduling

OUR ENVIRONMENTAL STRATEGY

We shall deliver our environmental policy by:

- setting clearly defined objectives and targets addressing our environmental issues,
- demonstrating continual improvement in our management of these environmental issues,
- taking account of environmental issues in our commercial decision making,
- working constructively with organisations concerned for the environment,
- promoting our environmental activities with our staff, partners and other stakeholders and letting them know of our concern for the environment,
- complying with the legislation, regulations and codes of best practice aimed at protecting and improving the environment,
- providing support and advice to staff, suppliers and other stakeholders on environmental matters relating to our operations and ensuring that all staff and subcontractors will be made aware of this policy and associated procedures concerning our impact on the environment, and monitoring, auditing and reviewing our performance, including an annual review of this policy.
